UNIT 1

Windows Basics

Chapter 1: Getting Your First Look 3

Logging In to Windows 5
Passwords 5
What Happens During the Startup Process? 6
The Windows Desktop 8
Basic Computer Components 8
Start Button 11
Icons 11
Notification Area 12
Network Connection 12
Using a Mouse 12
Mouse Motions 13
Passwords and Account Settings 15
Accessing Account Settings 15
Signing Out and Switching Users 16
Switch Users 16
Locking the Computer 17
The Start Menu 18
Commands 18
The Pinned and Recommended Lists 21
Pinning Commands to the Start Menu 21
Moving Apps on the Start Menu 22
Adding Folders to the Start Menu 22
Deleting a Start Menu Folder 24
Shutting Down 24
Shut-Down Methods 24
Sleep 25
Shut Down 25
Restart 25
Self-Assessment 27
Skill Builders 28
Try This at Home 29

Chapter 2: Starting and Controlling Apps 31

Controlling App Windows 33
Quick-Sizing Buttons 33
Moving and Resizing App Windows 36
Touch Controls 39
Touch Gestures 40
Touchpad Controls 41
Working with the Taskbar 41
Notification Area 42
Pinning and Unpinning Apps 43
Action Center (Notifications) 44
Notifications 45
Actions 47
Multitasking 48
App Switching 49
The Flip Command 51
Show Desktop and Task View 52
The Usefulness of Multitasking 53
Self-Assessment 54
Skill Builders 55

Chapter 3: Creating an Online Account 57

Why Online? 58
The Cloud 59
Office for the Web 59
Creating Your Microsoft Account 60
Account Verification 60
Making Connections 63
Logging In to OneDrive and Microsoft 365 for the Web 65
Online Messages 65
Always Logged In 68
Opening Microsoft 365 for the Web Apps 68
Self-Assessment 70

Chapter 4: Working with Apps 71
App Commands 73
Menu Commands 73
Commands in Programs with Ribbons 75
Saving Your Work 77
Where Your Work Is Located 77
Files and Folders 78
Choosing a Storage Location 78

Restoring Folders and Files 185
OneDrive File Storage 186
Creating OneDrive Folders 187
Navigating Between Folders 189
Uploading Files to OneDrive 190
Downloading from OneDrive 191
Self-Assessment 193
Skill Builders 194

UNIT 3

The Internet and More

Chapter 8: Using the Internet 199
The Internet 201
The World Wide Web 201
Equipment Used to Connect to the Internet 202
Connection Types 204
Web Browsers 206
Uniform Resource Locators (URLs) 207
Basic Navigation 209
Hyperlinks 210
Tabbed Browsing 211
Printing a Web Page 213
Favorites 214
Favorites Bar 216
Creating Folders in Favorites 218
Removing Favorites 220
History 221
Downloads 221
Self-Assessment 222
Skill Builders 223
Try This at Home 226

Chapter 9: Researching on the Internet 227
Performing a Basic Web Search 228
How Search Engines Work 229
Basic Search Techniques 229
Improving Your Search Results 232
The World of Search Engines 233
The Hidden Web 234
Difficult Searches 234
Searching for Images 235
Defending Yourself from Web Threats 236
Threats While Surfing 236
Protection Software 237
Using Social Media Sites Safely 238
Steps You Can Take 239
Self-Assessment 240
Skill Builders 241

Chapter 10: Using Settings and Help 245
Searching Windows and the Web 247
Choosing a Search Link to the Internet 248
Getting Help 249
Using Settings 250
Working with Web-Based Simulations 250
Settings Versus the Control Panel 251
Controlling the Screen 252
Screen Resolution Settings 252
LED Monitors and Aspect Ratios 252
Changing the Background Image 254
Power Options 255
Battery Saver 255
Power and Sleep 255
Additional Power Settings 256
Windows Update 257
The Trend Toward Automatic Updates 258
The Store 259
What's in the Store? 259
Downloading Apps 260
Self-Assessment 261
Skill Builders 262
Try This at Home 263

Self-Assessment Answer Key 267
Glossary 271
Index 273
